

Mateusz Musko  
This is a summary hello :)

# 1 Experience

Here will be a description of *experience* My *name is* Mateusz

## 1.1 Python Developer

FUJITSU, *July 2021 – December 2021*

## 1.2 Associate Python Developer

## 1.3 Assistant Python Developer

FUJITSU, *July 2021 – December 2021*

- Contributed to a strategic R&D project to integrate Fujitsu's proprietary Digital Annealing (quantum-inspired computing) technology with the Microsoft Azure platform, making it accessible as a cloud service.
- Developed a key module for user billing and resource metering using Python, Celery, and Redis, ensuring accurate tracking of service consumption.
- Analyzed, debugged, and resolved issues within a large-scale, asynchronous Python codebase (using FastAPI and asyncio), improving overall application stability.
- Gained practical experience with cloud-native database solutions, including Azure CosmosDB and PostgreSQL, for managing application and user data.
- Operated within an Agile framework using Azure DevOps for sprint planning, task management, and version control (Git).

## **2 Certificates**

## **3 Skills**

## **4 Languages**

1. Polish - Native
2. English - C1 equivalent
